

Shelf Cart

The NORD Shelf Cart merges with our Quick Mover installed on the mobile robot, to receive or deliver objects placed on the Shelf Cart anywhere in the production site.

The NORD Shelf Cart can be mounted with any individual application or solution the customer might wish for. Due to the design of the Shelf Cart, the AMR can recognize when it is under the cart to transport it around.

WORKS WITH

Quick Mover 220-MiR
Quick Mover 70-MiR

Simple and fast
assembly process

No docking station
is needed

Can be placed anywhere
in the production site

Can be mounted with
